

**SECTION 02970  
CLEANUP**

**PART 1 - GENERAL REQUIREMENTS**

**1.01 SCOPE OF WORK**

- A. The work to be performed under this Section shall consist of furnishing all labor, materials, tools, transportation, supplies, equipment, appurtenances, fuel, and power, and incidentals, and for doing all work necessary for the cleanup of the work as shown or noted on the plans and described in these specifications.

**PART 2 - CONSTRUCTION**

**2.01 GENERAL**

- A. Throughout all phases of construction, including suspension of work, and until final acceptance of the project, the Contractor shall keep the site occupied by him in a clean and orderly condition, free from rubbish and debris, and disposing of refuse in a manner satisfactory to the Engineer.

**2.02 DETAILED REQUIREMENTS**

- A. Excess or unsuitable material or other waste materials shall be removed from the job site and disposed of by the Contractor at no additional cost to the Owner, unless otherwise directed by the Engineer. The Contractor shall remove spills resulting from hauling operations immediately. All gutters and roadside ditches shall be kept clean and free from obstructions. Any deviation from this practice shall have prior approval from the Engineer.
  - 1. In areas where excessive dust, caused by construction operations, is a nuisance to property owners and crops, the Contractor shall frequently wet down the area to control the dust and abate the nuisance accordingly.
  - 2. Equipment and materials shall be removed from the site as soon as they are no longer necessary.

**2.03 COMPLETION**

- A. The Contractor, upon completion of all work, shall restore all access roads, haul roads, and the areas surrounding the borrow areas and project sites to the condition existing prior to commencement of work and in a manner satisfactory to the Engineer.
- B. As a condition of final acceptance of the work, the Contractor shall carefully cleanup the work site and the premises, remove all temporary structures built by him or for him, remove all surplus construction materials, debris, and rubbish of all kinds from the grounds, which he has occupied, leave the area in a neat and clean condition, and clear the site of equipment. The entire project shall be left in a condition that will present a pleasing appearance as viewed in general and in a manner satisfactory to the Engineer.
- C. Failure of the Contractor to comply with the Engineer's cleanup orders shall result in an order to suspend final payment until the condition is corrected.

### **PART 3 - MEASUREMENT AND PAYMENT**

- 3.01** Full compensation for all costs incurred and the work covered in this Section shall be considered as included in the unit prices paid for the various items as set forth in the Contractor's Bid, and no additional or separate compensation will be made therefor.

**END OF SECTION 02970**
