

Proposed location of new picnic table and gathering area by the lake. Table is a 4'x4' commercial grade table with a game board in the middle. I wish to donate the table to the community, I will install it free of charge, but i do ask if the board could cover the cost of the concrete slab under and around the table. Estimate of cost of concrete is around \$900.00, 5 yards of 5 1/2 sack 3/4"3,000 PSI . All forms tools and labor will be donated and the hope is the community will volunteer to help with this project.

This is a picture of a similar table, the table that I will donate is black.
